**IMPROVEMENTS TO LINDEN LANE AND SPRUCE STREET
Project Update Notice No. 12
July 15, 2020**

Dear Linden Lane and Spruce Street Neighborhood Property Owners and Residents:

On or about Thursday, July 16, 2020, Integrated Construction & Utilities of New Jersey (ICUNJ) will be refocusing on remaining construction activities listed below. ICUNJ anticipates starting on Spruce Street at Moore Street and progressing east on a block-by-block basis until reaching Linden Lane.

- **Sanitary sewer main replacement at 3 locations (along Spruce Street side of 73-75 Moran Avenue; in front of 125 Spruce Street; and starting near 39 Linden Lane to the Linden Lane/Hamilton Avenue intersection)**
- **Storm sewer pipe repair at 5 locations (in front of 20 Spruce Street; in front of 36 Spruce Street; Spruce Street and Chestnut Street intersection; in front of 95 Spruce Street and 54 Maple Street; and Spruce Street and Linden Lane intersection)**
- **Removal of unhealthy and hazardous trees**
- **Stormwater inlet repairs at 34 locations (10 on Linden Lane, and 24 locations along Spruce Street)**

Curb and sidewalk replacement is expected to follow once the above activities are completed.

Remaining sanitary sewer lateral construction activities on Linden Lane are expected to take place while the sanitary sewer main is being replaced.

While construction is underway, each roadway section will be closed to all traffic Monday - Friday, 7:00 am - 6:00 pm on a block by block basis. On-street parking in the work area will also be prohibited while work is taking place. Residents should park on surrounding streets during construction work hours. **Please be advised that on street parking will become increasingly limited as more construction activities take place concurrently.** The road section will be open at the end of each work day and on the weekends. If you need to park overnight on the street, a temporary parking placard can be issued. Please contact Tiffany Smith, tsmith@princetonnj.gov, to obtain a placard. Vehicle information will be given to parking enforcement and police to prevent tickets being issued.

Despite our best efforts to notify service providers, we advise that there will most likely be disruptions to garbage collection and recycling when work is taking place. Please report a missed trash pickup via SeeClickFix, or report a missed recycling pickup to Mercer County Improvement

Authority (contact information for both on page 3). In cases of an emergency, the contractor will accommodate all emergency vehicles into a work zone. Access for services and deliveries within the construction limits shall be maintained at all times during construction. If special accommodations are required, please advise us at your earliest convenience.

Ian Baker, Construction Engineer, is the main point of contact. Ian Baker and Tiffany Smith, Inspector, will be on-site daily while the contractor is working to observe the work. A project contact list is provided on the next page of this notice.

We will send out regular notifications by email regarding the project progress, changes to access, etc. These notices will also be posted on the project website at: <https://www.princetonnj.gov/resources/improvement-of-linden-lane-nassau-street-to-hamilton-avenue-and-spruce-street>. To facilitate ease of communication regarding the project, please contact jredeyoff@princetonnj.gov to be added to the project email list.

We appreciate tolerance of the construction activities and everyone's cooperation while we work to improve the neighborhood!
