IMPROVEMENTS TO LINDEN LANE AND SPRUCE STREET

Project Update Notice No. 15

August 21, 2020

Dear Linden Lane and Spruce Street Neighborhood Property Owners and Residents:

Our contractor has provided us the following information,

During the Week of August 24th, weather permitting, Integrated Construction & Utilities of New Jersey (ICUNJ) will be continuing the following construction activities listed below, progressing east on a block-by-block basis until reaching Linden Lane.

- **Storm sewer pipe repair at 1 remaining location** (Spruce Street and Linden Lane intersection)
- **Storm water inlet repairs at 34 locations** (10 on Linden Lane, and 24 locations along Spruce Street)
- **Sanitary sewer laterals replacements at various locations on Linden Lane**
- **Sanitary sewer main replacement at 3 locations** (along Spruce Street side of 73-75 Moran Avenue; in front of 125 Spruce Street; and starting near 39 Linden Lane to the Linden Lane/Hamilton Avenue intersection); Remaining sanitary sewer lateral construction activities on Linden Lane are expected to take place while the sanitary sewer main is being replaced.

Lancha Construction (a subcontractor to ICUNJ) will continue to replace curbs, sidewalk, and ADA crosswalk ramps on Linden Lane from Nassau Street to Hamilton Avenue. After completion, the same work will begin on Spruce Street. Sidewalk detours will be installed while work is taking place and while concrete is curing. Pedestrians are advised to avoid sidewalk construction zones and use alternative routes.

While construction is underway, each roadway section, on a block-by-block basis, will be closed to all traffic Monday - Friday, 7:00 am - 6:00 pm. **On-street parking in the work area will also be prohibited while work is taking place. Residents should park on surrounding streets during construction work hours. Please be advised that on street parking will become INCREASINGLY LIMITED as more construction activities take place concurrently and multiple contractors are working onsite.** The road section will be open at the end of each work day and on the weekends. If you need to park overnight on the street, a temporary parking placard can be issued. Please contact Tiffany Smith, tsmith@princetonnj.gov, to obtain a placard. Vehicle information will be given to parking enforcement and police to prevent tickets being issued.

Despite our best efforts to notify service providers, we advise that there will most likely be disruptions to garbage collection and recycling when work is taking place. Please report a missed trash pickup via SeeClickFix, or report a missed recycling pickup to Mercer County Improvement Authority (contact information for both on page 3). In cases of an emergency, the contractor will accommodate all emergency vehicles into a work zone. Access for services and deliveries within the construction limits shall be maintained at all times during construction. If special accommodations are required, please advise us at your earliest convenience.

Ian Baker, Construction Engineer, is the main point of contact. Ian Baker and Tiffany Smith, Inspector, will be on-site daily while the contractor is working to observe the work. A project contact list is provided on the next page of this notice.

We will send out regular notifications by email regarding the project progress, changes to access, etc. These notices will also be posted on the project website at: <https://www.princetonnj.gov/resources/improvement-of-linden-lane-nassau-street-to-hamilton-avenue-and-spruce-street>. To facilitate ease of communication regarding the project, please contact jredeyoff@princetonnj.gov to be added to the project email list.

We appreciate your tolerance of the construction activities and everyone's cooperation while we work to improve the neighborhood!
