**RECONSTRUCTION OF BANK STREET AND NASSAU STREET (NJSH RT. 27) STREETScape
(BAYARD LANE TO BANK STREET)**

Project Update Notice No. 12

June 10, 2021

Dear Bank Street Residents and Nassau Street Business Owners:

As of tomorrow, **Friday, June 11, 2021**, and until further notice, Earle Asphalt Company (EAC) will not be on-site on Fridays due to their company's scheduling program. **This weekend June 11-13, on-street parking is prohibited as there are open trenches and inadequate road width in certain areas to allow for parking and local traffic.**

Weather permitting, EAC will return to Bank Street, **Monday, June 14, 2021**, to continue replacing sidewalk on Nassau Street; connecting downspout/sump pump drains; and replacing curbs and sidewalk on Bank Street. We are projecting all work to be complete on or about July 2, 2021, weather permitting.

As a reminder, **on-street parking is still prohibited from 8:00 AM to 6:00 PM while work is taking place. The road may reopen earlier than 6:00 PM.** Parking will be allowed in existing driveways; however, access to the street will be closed during work hours. It is recommended that residents move cars before 8:00 AM if they are needed during the workday. Cars may return to Bank Street at end of the day. If you park in private parking lots on Bank Street, we recommend moving your vehicles before 8:00 AM, should you need to leave during construction hours.

We would like to take this opportunity to remind residents to contact your service provider(s) ASAP, if you are planning on making underground utility upgrades. This will ensure that upgrades will be complete before we replace sidewalks and pave the roadway.

As mentioned in the neighborhood meeting and previous notices, we have arranged parking as follows:

- 25 parking spaces at Trinity Church designated for residents
- 7 parking spaces along the northern curb of Paul Robeson Place designated for residents
- 8 parking spaces on Mercer Street Extension designated for businesses
- 10 parking spaces along the northern curb of Paul Robeson Place designated for businesses

Please email tsmith@princetonnj.gov to register for a parking placard to utilize these parking spaces. The yellow parking placard must be displayed on the vehicles dashboard while parked at these locations **ONLY**. **These parking placards do NOT allow for parking anywhere else in town.** Overnight parking in these locations is permitted. All parking areas will have signage to show permissible parking spaces.

Despite our best efforts to notify service providers, we advise that there will most likely be disruptions to garbage collection and recycling when work is taking place. Please report missed garbage pickups on Princeton's SeeClickFix system. Missed recycling pickups should be reported directly to the Mercer County Improvement Authority at (609) 278-8086.

Ian Baker, E.I.T., Construction Engineer, will be acting as the project manager; Inspectors Rich Decker and Tiffany Smith will be on-site each day while construction is occurring. Please visit the project webpage on Princeton's website at the [Bank Street Improvement Project webpage](#) for all of the latest project information and updates. To facilitate ease of communication regarding the project, please subscribe to receive text messages and/or email notifications on the municipal website at <https://www.princetonnj.gov/list.aspx>. To be added to the project E-mail list or if you require a translated version of this notice, please contact jredeyoff@princetonnj.gov.

We appreciate your tolerance of the construction activities and everyone's cooperation while we work to improve the neighborhood!
