**RECONSTRUCTION OF BANK STREET AND NASSAU STREET (NJSH RT. 27) STREETScape  
(BAYARD LANE TO BANK STREET)**

**Project Update Notice No. 13**

**June 25, 2021**

Dear Bank Street Residents and Nassau Street Business Owners:

As of today, Friday, June 25, 2021, Earle Asphalt Company (EAC) has completed the curb and sidewalk work along the western curblin. EAC will continue replacing curb and sidewalks on the eastern curblin. Work on the eastern curblin will begin near 37 Bank Street and continue uphill towards Nassau Street. We encourage all residents to utilize the new sidewalk along the western curblin while work commences on the eastern curblin. This will ensure safe passage through the construction zone. We also encourage residents to walk up to Nassau and around to Chambers Street rather than walking through the construction zone, when possible.

While reconstructing the eastern curblin, **ALL on-street parking is prohibited over the weekend and all of next week, as there are open trenches and inadequate road width in certain areas to allow for parking and local traffic.** Residents with in the newly constructed driveways can utilize their driveways over the weekend and between the hours of 6:00 p.m. and 8:00 a.m. We have coordinated with Trinity Church to allow overnight parking this weekend for residents, if needed. The meters on Mercer Street Extension will not be bagged over the weekend, but we have notified parking enforcement that residents with a parking placard may utilize these spots overnight, if needed.

Regarding the schedule, we are now projecting all work to be complete on or about **July 30, 2021**, weather permitting. Monday, July 5<sup>th</sup> is a holiday, so no work will take place. Construction will take place five (5) days a week (Monday – Friday) until project completion. Looking ahead for the next few weeks, EAC anticipates remaining curb and sidewalk work to wrap up on or about July 9<sup>th</sup>; the reconstruction of the Chambers Street and Hulfish Street intersection will take place the week of July 12<sup>th</sup>; milling and paving will take place the week of July 19<sup>th</sup>.

As mentioned in previous notices, we have arranged parking as follows:

- 25 parking spaces at Trinity Church designated for residents
- 7 parking spaces along the northern curb of Paul Robeson Place designated for residents
- 8 parking spaces on Mercer Street Extension designated for businesses
- 10 parking spaces along the northern curb of Paul Robeson Place designated for businesses

Please email [tsmith@princetonnj.gov](mailto:tsmith@princetonnj.gov) to register for a parking placard to utilize these parking spaces. The yellow parking placard must be displayed on the vehicles dashboard while parked at these locations **ONLY**.

**These parking placards do NOT allow for parking anywhere else in town.** Overnight parking in these locations is permitted. All parking areas will have signage to show permissible parking spaces.

Despite our best efforts to notify service providers, we advise that there will most likely be disruptions to garbage collection and recycling when work is taking place. Please report missed garbage pickups on Princeton's SeeClickFix system. Missed recycling pickups should be reported directly to the Mercer County Improvement Authority at (609) 278-8086.

Ian Baker, E.I.T., Construction Engineer, will be acting as the project manager; Inspectors Rich Decker and Tiffany Smith will be on-site each day while construction is occurring. Please visit the project webpage on Princeton's website at the [Bank Street Improvement Project webpage](#) for all of the latest project information and updates. To facilitate ease of communication regarding the project, please subscribe to receive text messages and/or email notifications on the municipal website at <https://www.princetonnj.gov/list.aspx>. To be added to the project E-mail list or if you require a translated version of this notice, please contact [jredeyoff@princetonnj.gov](mailto:jredeyoff@princetonnj.gov).

We appreciate your tolerance of the construction activities and everyone's cooperation while we work to improve the neighborhood!
