

DID YOU KNOW? Princeton now requires all landscapers to be registered with the municipality. If you use a landscaper to maintain your yard please make sure they have registered to perform landscaping services within the municipality. If your landscaper places yard materials at the curb for our DPW staff to collect, please ensure they are following the proper dates put in place by DPW staff.

You are responsible for the proper placement of materials placed curbside by your landscaper. If your landscaper places materials for collection against our schedule, you as the homeowner may receive a Notice of Violation.

Please help keep our streets clean and safe by asking to see your landscaper's registration form issued by the municipality and ensuring they follow the proper placement of materials for collection.
