Updated June 23, 2015

IMPORTANT NOTICE **PROSPECT AVENUE ROADWAY IMPROVEMENTS** **(HARRISON STREET TO RIVERSIDE DRIVE WEST)**

Dear Prospect Avenue Neighborhood Residents:

All interested residents are invited to attend the neighborhood meeting scheduled for 7:00 pm on Thursday, June 25, 2015 to discuss the improvement of Prospect Avenue between Harrison Street and Riverside Drive West. The meeting will be held in the main meeting room of the Municipal Building located at 400 Witherspoon Street.

Council President Bernie Miller will chair the meeting. Representatives from S Brothers Construction (the Municipality's contractor) and the Engineering and Police Departments will discuss the project, the planned construction schedule, equipment and material storage, and answer questions.

The proposed Prospect Avenue roadway improvements currently include the following:

- Sidewalk and curb repair / replacement. The sidewalk slabs to be replaced have been identified with silver paint dots on the concrete.
- Curb installation (curb bump-outs) to promote traffic calming. The curb bump-outs at the Prospect Avenue intersections with Robert, Forester, Cedar, and at 218/219 Prospect Avenue, have been painted on the roadway in pink paint; the paint marks generally represent where the new curb would be constructed to replace the existing curb. The bumpouts will narrow the road from 30 feet to 24 feet at each location.
- Curb installation (see the pink paint marks) at the Riverside School (northeast) corner of the Prospect / Riverside Drive West intersection to shorten the pedestrian crosswalk length and move the westbound stop bar closer to the intersection.
- Roadway milling and repaving.
- Permanent signage and pavement striping.

We would appreciate if you would review the painted locations of the proposed curb bump out and sidewalk repair prior to the neighborhood meeting, and come with any questions you may have to the meeting.

These improvements are scheduled to start in July with the major portion of the work to be completed prior to Labor Day. Residents are advised that the Municipality will be imposing a 5-year moratorium on any street openings once the work is completed. Therefore, if you plan to upgrade or install new utility services such as gas, water, electric, etc., you should contact the respective utility company at this time to make the necessary arrangements.

A telephone list for the various project contacts is provided below for your use. If you have any concerns or questions prior to the meeting, please contact this office at 609-921-7077. If you are unable to attend the meeting, please email Jill Redeyoff at jredeyoff@princetonnj.gov so that we can add you to the email notification list for construction updates. Updates will also be posted to the Prospect Avenue project on the Engineering webpage at <http://www.princetonnj.gov/engineering/index.html>. Road closure updates may also be sent by the Police Department via Nixle.com; please see http://www.princetonnj.gov/police/Nixle_press_release.pdf and the "Advisories" tab at <http://www.princetonnj.gov/index.html> for more information on the Nixle notification service.

Sincerely,

 Robert V. Kiser, P.E., Director of Engineering
