**To Our Neighbors in Princeton:**

As part of our company's effort provide high quality drinking water and improve service to our customers, New Jersey American Water will be replacing 400 of 2" and 1" copper water service line with 600' new 8" Ductile Iron water main along Hillside Avenue between Ewing St and Walnut Lane in the Municipality Of Princeton. This new water main is being installed to improve service reliability, water quality, and increase fire flows to the area.

Starting on or about March 1, 2016 and continuing for 2 weeks, CRJ Contracting Co. Inc. a contractor working for New Jersey American Water will be working between the hours of 7:00 AM to 4:00 PM Monday thru Friday. Traffic control will be coordinated through the Princeton Police Department. Local road closures during construction may be in effect. All roads will be open at the end of the work day with emergency access provided at all times. As part of this upgrade all water meters will be relocated from inside your home or business to a meter pit that is located in the right of way area along the street or curb line.

You may experience brief periods of service interruption while the work is being performed. All customers will be given prior notice to any service disruption. New Jersey American Water will do everything possible to ensure a minimum of inconvenience while the new water main is being installed.

If you have any questions regarding this matter please contact Mr. John Thomas Construction Inspector at 908 431-3217 or (908) 308-7367.

Sincerely,  
New Jersey American Water
