

Conditions and Work Specifications

Conditions

1. Work must commence within 45 days of date of issue.
2. Work under this permit is permitted between March 16 and November 30. Special permission from the Engineer is required for work outside of these dates.
3. Permits shall expire one year from the date of issuance unless a written request for a time extension is approved.
4. Permitted work hours are 7:00 AM to 6:00 PM Monday through Friday, or as approved by the Engineer. Saturday work hours are 8 AM to 6 PM, or as approved by the Engineer.
5. 48 hours prior to beginning permitted work, the Permittee shall notify the Engineering Department by email permitrow@princetonnj.gov or telephone 609-921-7077. Failure to notify may result in work shutdown.
6. Upon completion of final restoration work, the Permittee shall notify the Engineering Department by email permitrow@princetonnj.gov or telephone 609-921-7077 to request a final inspection and release of the 80% performance bond.
7. Permit must be in the possession of the contractor on-site while work is taking place.
8. If metered parking spaces shall be occupied, the Permittee shall apply for and purchase meter bags from Department of Public Works. <https://www.princetonnj.gov/resources/meter-bags>

Work Specifications

1. Maintain a 4-foot clear protected pedestrian walkway. Walkway must be ramped at entry to sidewalk for handicapped accessibility. If a walkway cannot be maintained, the Permittee shall install a pedestrian detour.
2. Full width of roadway, including parking lanes, shall be opened to traffic when site is unattended.
3. All temporary traffic control devices, including but not limited to signs, channelizing devices, fencing and markings shall be provided, installed, maintained and removed by the Permittee in accordance with the most recent version of Part 6 of the Manual on Uniform Traffic Control Devices (MUTCD). <http://mutcd.fhwa.dot.gov>
4. Trench backfill material shall be dense graded aggregate, unless alternate material is approved by the Engineer. Backfill shall be compacted in six-inch (6") lifts to a minimum of 95% of modified proctor.
5. Flag person shall be provided to stop pedestrian and/or vehicle traffic while lifting materials overhead and also when crossing sidewalk.
6. The Permittee is required to install, maintain, and remove all necessary temporary parking and regulatory signs and pavement markings and restore to their original condition prior to 80% release of the performance bond.
7. Permittee shall not place materials, vehicles, trailers, containers, or equipment in front of driveways, bus stops, within fifteen feet of a fire hydrant, or within 25 feet of an intersection only or crosswalk.
8. Loading, standing or parking in a lane adjacent to the work zone in the roadway is prohibited.
9. Permittee shall be responsible for all equipment, vehicles and personnel on or around work site.
10. No track equipment shall be operated on paved roadway surfaces.
11. No trees or shrubs shall be injured, disturbed or removed without prior written approval of the Arborist.
12. Permanent restoration of roadway and shoulder shall be in conformance with municipal standards and completed within one week of trench backfilling, as weather permits. Permanent pavement restoration may be delayed by the Engineer if cold weather conditions exist.
13. Any non-permitted areas damaged by construction shall be replaced at the Permittee's cost and expense, to the same or better condition as it was prior to the time of the start of the work.
14. All disturbed shoulder areas shall be topsoiled and seeded and exhibit 80% grass coverage.
15. Any damaged or destroyed vegetation including groundcover shall be replaced to satisfaction of abutting property owner and Engineer.
16. Permittee shall comply with MUTCD work zone regulations. Contact Princeton Police Traffic Safety Bureau at 609 921-2100 for further info.
