**RECONSTRUCTION OF BANK STREET AND NASSAU STREET (NJSH RT. 27) STREETScape
(BAYARD LANE TO BANK STREET)
NOTICE OF NEIGHBORHOOD PRECONSTRUCTION MEETING
THURSDAY, JANUARY 28, 2021 AT 7:00 PM VIA ZOOM**

Dear Bank Street Residents and Nassau Street Business Owners:

On or about February 1, 2021, Princeton's contractor, Earle Asphalt Company of Farmingdale, New Jersey, will begin the reconstruction of Bank Street. You are invited to attend a virtual meeting (via Zoom) on Thursday, January 28, 2021 at 7:00 pm with Earle Asphalt Company and representatives of Princeton's Engineering, Public Works and Police Departments. We will present information regarding the construction schedule and impacts, and will answer any questions you have. We encourage you to attend and / or send in questions regarding this project.

+1 669 900 9128 or +1 253 215 8782

Webinar ID: 837 4660 5821

International numbers available: <https://us02web.zoom.us/j/83746605821?pwd=cmREMWYzclVxMXhK1RBOFI5K0RFZz09>

Earle Asphalt Company will be constructing the following improvements over the next five (5) months:

- Sanitary sewer main and laterals
- Storm sewer including pipe replacement, downspout connections, new inlets and system extension
- Granite and concrete curbing
- Concrete sidewalk
- Asphalt roadway pavement surface
- Concrete sidewalk on Nassau Street from Bayard Lane to the east side of Bank Street
- Street trees

Construction is permitted Monday through Friday from 8:00 am until 6:00 pm. Work on Saturday is permitted between 8:00 am and 6:00 pm with prior consent of the Municipal Engineer.

Vehicular access to the street will be prohibited or very limited during the workday; if you require special accommodations, please contact the Construction Engineer at your earliest convenience (contact information provided on the next page). Emergency services shall always be accommodated on Bank Street during work hours. We will work closely with you, Police and the various service providers at the onset of construction to coordinate deliveries and other services. At this time, we anticipate that the roadway will reopen to traffic at the end of each workday.

On-street parking will be prohibited while work is taking place. For those with driveways, we ask that you relocate your vehicle out of your driveway when work is occurring to minimize the number of times you need to enter the work zone. This is for both your safety and the contractor's safety. The Municipality of Princeton is preparing a plan for alternative parking locations for Bank Street residents during construction. We will present this information at the preconstruction meeting and will send to the neighborhood email list.

Residents are advised that there will be a 5-year moratorium for road openings after the final roadway pavement is installed. If you are planning on making underground utility upgrades, we recommend that you contact your service provider ASAP so that the upgrades can be completed before we replace your sidewalks and pave the roadway. Contact information for the providers is included on the attached contact list.

Ian Baker, E.I.T., Construction Engineer, will be acting as the project manager; Inspectors Rich Decker and Tiffany Smith will be on-site each day while construction is occurring. Please visit the project webpage on Princeton's website at the [Bank Street Improvement Project webpage](#) for all of the latest project information and updates. To facilitate ease of communication regarding the project, please subscribe to receive text messages and/or email notifications on the municipal website at <https://www.princetonnj.gov/list.aspx>. To be added to the project E-mail list or if you require a translated version of this notice, please contact jredeyoff@princetonnj.gov.

Despite our best efforts to notify service providers, we advise that there will most likely be disruptions to garbage collection and recycling when work is taking place. Please report missed garbage pickups on Princeton's [SeeClickFix system](#). Missed recycling pickups should be reported directly to the Mercer County Improvement Authority at 609-278-8086.

We look forward to "seeing" you on January 28th at the preconstruction meeting. If you are unable to attend, please contact the Engineering Department with questions, and check out the latest project information on the website.

Best regards,

Deanna Stockton, P.E., C.M.E.
Princeton Municipal Engineer
