

PSE&G Gas System Modernization Project End of Construction Notice

Dear Valued Customer:

PSE&G recently completed gas system modernization upgrades in your neighborhood. We would like to thank you sincerely for your patience throughout our construction of this important work. Your cooperation has allowed us to accelerate the replacement of aging pipes, supporting a safe, clean and reliable gas system.

While the upgraded gas pipes are now in service, there may be restoration work remaining, including lawn re-seeding, sidewalk repairs and roadway restoration. All roadways currently have temporary patches but these will be addressed at the time of final restoration. The amount of time between temporary and final restoration varies, as it depends on factors such as weather, time of year and roadway material.

Finally, if you would like additional information about our projects, please visit us at www.pseg.com/gaswork or call our Gas Construction Hotline at 1-833-661-6400.

Thank you for the opportunity to serve you.

Sincerely,

PSE&G Gas Construction Team
