**RECONSTRUCTION OF BANK STREET AND NASSAU STREET (NJSH RT. 27) STREETScape
(BAYARD LANE TO BANK STREET)**

Project Update Notice No. 5

February 16, 2021

Dear Bank Street Residents and Nassau Street Business Owners:

With the forecasted weather conditions for the rest of the week, Princeton's contractor, Earle Asphalt Company (EAC), has rescheduled the start of construction to **Monday, February 22, 2021**, weather permitting. EAC will begin sanitary sewer construction at the dogleg turn, then work uphill towards Nassau Street.

In order to provide adequate maneuvering space for the contractor's vehicles and equipment, **Bank Street will be closed to all through traffic while this work is taking place; a barricade will be placed at each end of the roadway.** This is for both your safety and the contractor's safety.

On-street parking will be prohibited from 8:00 AM to 6:00 PM while work is taking place. The road may reopen earlier than 6:00 PM. Parking will be allowed in existing driveways; however, access to the street will be closed during work hours. It is recommended that residents move cars before 8:00 AM if they are needed during the workday. Cars may return to Bank Street at end of the day. If you park in private parking lots on Bank Street, we recommend moving your vehicles before 8:00 AM, should you need to leave during construction hours.

As mentioned in the neighborhood meeting, we have arranged parking as follows:

- 25 parking spaces at Trinity Church designated for residents
- 7 parking spaces along the northern curb of Paul Robeson Place designated for residents
- 8 parking spaces on Mercer Street Extension designated for businesses
- 10 parking spaces along the northern curb of Paul Robeson Place designated for businesses

In order to utilize these parking spaces, please email tsmith@princetonnj.gov to register for a parking placard. The yellow parking placard must be displayed on the vehicles dashboard while parked at these locations. Overnight parking on Paul Robeson Place and Mercer is permitted. Overnight parking at Trinity Church on Friday and Saturday nights will **NOT** be permitted. Overnight parking will be permitted at Trinity Church on Sunday, Monday, Tuesday, Wednesday, and Thursday nights. All parking areas will have signage to show permissible parking spaces. We have attached slides from the January 28th, 2021 presentation, showing parking locations for reference.

We would also like to take this opportunity to remind residents to contact your service provider(s) ASAP, if you are planning on making underground utility upgrades. This will ensure that upgrades will be complete before we replace sidewalks and pave the roadway.

Despite our best efforts to notify service providers, we advise that there will most likely be disruptions to garbage collection and recycling when work is taking place. Please report missed garbage pickups on Princeton's SeeClickFix system. Missed recycling pickups should be reported directly to the Mercer County Improvement Authority at (609) 278-8086.

Ian Baker, E.I.T., Construction Engineer, will be acting as the project manager; Inspectors Rich Decker and Tiffany Smith will be on-site each day while construction is occurring. Please visit the project webpage on Princeton's website at the [Bank Street Improvement Project webpage](#) for all of the latest project information and updates. To facilitate ease of communication regarding the project, please subscribe to receive text messages and/or email notifications on the municipal website at <https://www.princetonnj.gov/list.aspx>. To be added to the project E-mail list or if you require a translated version of this notice, please contact jredeyoff@princetonnj.gov.

We appreciate your tolerance of the construction activities and everyone's cooperation while we work to improve the neighborhood!
